THE NEW PROVINCIAL GOVERNMENT.

Nothing could be simpler than the transfer of authority on May-day in La Plata; and yet the ceremony was surrounded with so many new and peculiar features that it merits especial notice. We give at foot all the particulars at hand so far, complimenting the public men who played their part, and the people on the obedience to laws which it is our duty to respect, and on the free institutions of the country, which everyone is bound to uphold.

Governor Rocha has descended from office after one of the most difficult terms it ever fell to the lot of any Buenos Ayrean Governor to rule. New interests and an entirely new order of things sprang up under his feet. Since he took office in Belgrano, the slightest blunder or error on his part might have entailed on his province the most incalculable woes, but with patience, genius and perseverance he has at last succeeded in extricating the province from a situation which in the hands of any other might have led to new political departures and changes which it is unnecessary to contemplate.

With the most iron determination he carried out in the teeth of every opposition the law proclaiming La Plata the Capital; any other man when he discovered the extraordinay difficulties that opposed the scheme would have stopped short, but with Rocha there was no stoppage; the programme was begun and had to be carried out, and we are free to say, that in our humble opinion any change now in that programme will be an error, and the greatest political wisdom suggests the acceptation of the situation already formed, and obedience to the current which events have created. La Plata has cost the Province over one thousand millions currency, its port scheme is pregnant with very splendid commercial conveniences, and ten years hence this new capital will assert the advantages with which the great natural harbour of Ensenada has endowed her. La Plata, therefore, must be carried out, and any departure from the Rocha programme would be a serious political error.

Governor Rocha was essentially a railway governor. He has bisected the province with new railways, and, heaven bless his successor, Dr. D'Amico, if he sticks to the same programme, throws politics to the winds, and plants his chair of office on the locomotive.

The magnificent railway schemes projected by Messrs. Honoré and Bowen, which, when carried out, will make the province of Buenos Aires twenty times its present size, should be the maiden measure of our new Governor. For some cause or other this grand railway scheme has been delayed; let us hope that the first act of Governor D'Amico will be to push it ahead, and before he retires from office we hope to shake hands with him on the railway platforms of Mellisas, Trenquelauquen, Guamini, Carhue and Patagones.

The progress we have already witnessed in this country will be nil when compared with the gigantic impetus these noble works will give to everything in the land. New values, new lands, new fortunes and new families will rise on the advent of the steel rails through camps which to-day are a howling wilderness.

Governor Rocha has well closed his term of office by the inauguration of the Bahia Blanca Railway. Let us all hope that Dr. D'Amico will continue the chapter and close his period of office by the inauguration of the Trenquelauquen Railway, uniting the north, south and west.

LA PLATA.

OPENING OF THE 31ST. ASSEMBLY.

For the first time in the eventful history of the province of Buenos Aires the traditional assembly and installation of a new Governor have taken place outside the walls of this city. The Calle Moreno Government House has become a relic of the past; the former gilded pageantry, the old augustan splendor and transcendental importance which surrounded the reception of every new Governor have disappeared—perhaps for ever—from the precincts of the Calle Bolivar and Peru. Nothing can more eloquently reflect the changed fortunes of the province than the contrast drawn between 1st May 1884 and 1st May 1878. What changes six short years have worked!

At 1 p.m. a company of gendarmes and a battalion of National Guards formed in front of the department of Engineers; two brass bands enlivened the scene with delightful music, whilst crackers were fired in all directions and rockets were sped skywards by the thousand, and the neighbours of the 'partido' poured in, some on foot, some in carriage and very many on horseback; there was a muddy appearance about everything; both horses and carriages were covered with mire, and many black suits were bespattered. There was a rural charm about the surroundings, ceremony and legislators that escaped the notice of none; the change of air has done the deputies especially much good, and they looked brighter and less careworn that when sitting in Buenos Aires.

Owing to the unfinished condition of the new monumental Legislative Hall the splendid department of Engineers, a building not unlike the Finance Office in Brussels, was taken on this occasion for the Assembly and reception of the new Governor. The grand saloon forms a semi-circle; in the centre of the diameter a graceful platform rose in successive flats; on the top the President's table; on the sides the unfortunate short-hand writers; in front concentric semi-circles of seats for the legislators, who all looked as serious as judges, their weary features now and then illumined by some passing remark or sentence in the message.

The gallery, or space reserved for the public, contained several leading families, ladies and children; in the reserved seats one noticed several prominent officers of the army and intimate friends of the retiring Governor. Very many people of this city had promised to attend, but the late heavy rains, the melancholy descriptions given in the columns of the press and spreading an idea that the new capital was under water, prevented the majority from accepting the invitation. The hiatus in the attendance was remarkable, and the ceremony was rather tame in consequence.

At 3 p.m. H.E. Governor Rocha arrived: he shook hands with the President of the Chamber, bowed to the honorable gentlemen in the seats, and laid on the table the insignia of power—the beautiful sash and ornamented baton. He then took his message, bound in blue cloth and tied with blue and white ribbons; he read out his message in a clear and ringing voice and shewed little emotion. Dr Rocha's message is altogether too long for these columns; it began with reference to the relations between the National Government and that of the Province. The Governor stated with admirable tact that he had sought and found the solution to every difficulty in the study of the Nation's constitution, and in the laws passed by Congress. None of the great principles of the constitution of the province had clashed with the policy of the Nation, and he devoutly hoped that no such collision would ever take place. The public debt of the province stood as follows:—

July 1881 Loan.....	$19,500,000
Ensenada do.....	11,000,000
Riachuelo do	1,400,000
Various do.....	900,000
Total.....	$32,800,000

Over four hundred thousand hectares of public lands had been sold at auction at an average price of 174 $m/c per hectare; the revenue of the province was increasing steadily with its great prosperity, and the Contribucion Directa tax alone was yielding over twenty millions per annum. H. E. dwelt at length on the construction of La Plata, pointed to the immense importance of Ensenada, to the steady value of lands, to the gigantic growth of Bahia Blanca, to his great efforts and success in pushing ahead and extending the railways of the province, and closed his message paying for the greatness of his country.

The reading of the message took a full hour; the Governor's words were listened to with wrapt attention; a pin might be heard dropping in the hall. At four o'clock the bands began playing the National Hymn and the people cheered as the Governor and his Ministers walked to the Finance building. Here Dr. Rocha appended his name to the decree giving Dr. D'Amico the chair of Governor; he also signed a decree giving a month's salary to his secretaries, clerks, etc. Whilst all were speeding the parting Governor in the Finance building, the honrable legislators were welcoming the new Governor in the Engineers Department. Dr. D'Amico took the usual oaths before Vice-Governor Gonsalez Chaves and then read his programme, a rather lengthy document.

Governor D'Amico promised much in his speech, but above all he promised not to increase the taxes; we devoutly hope he will not break his word. There was one part of the speech that produced a magic effect, the ears of the honourable legislators bent forward when the governor stated that some parties were endeavouring to make disturbances in the province and that he would put down any such attempts; this is the only dark point in the new governor's speech and it were better left unsaid as it foreshadows clouds that after all may not darken the light horizon of the province.

Governor D'Amico adjourned after his speech to the Finance Office; here followed a scene disgusting to every Englishmen; the new and old Governor embraced each other like women, and what made the scene still more ridiculous they both looked very affected. Such unmanly proceedings should be discarded, and above all such pathetic nonsence should never be public: Argentines should throw over this stupid custom. After mutual expressions of good-will ex-Governor Rocha marched out arm-in-arm with General Levalle; about five hundred people accompanied him to his house and the crowd cheered lustily—the drop scene of three years' progressive government. Governor Rocha may take with him into private life the conviction that he has done in three years more than all his predecessors since the time of Rosas.

The following triangular telegrams were exchanged:

La Plata, May 1st.

To the President of the Republic.

I have just been installed as Governor of the Province. My first duty is to greet Your Excellency, and I fulfil it in placing myself at your orders as Governor of Buenos Aires.

C. D'Amico

Buenos Aires, May 1st.

To Governor Dr. C. D'Amico.

I thank you and return your greeting; and while congratulating you on the day you assume the Governorship of Buenos Aires, I send you my best wishes for your success and happiness.

Julio A. Roca.

La Plata, May 1st.

The Most Excellent President of the Republic.

I thank you with all my heart for your friendly telegram, and have the honour to inform you that I have just handed over the Government to our mutual friend Dr. D'Amico.

Your sincere friend

D. Rocha.

ENTRE RIOS GOING AHEAD.

GRAND INDUSTRIAL EXHIBITION.

The progress of Entre Rios within the last few years, is something very marked. Peace, order and good Government are reflected in the increased value of its lands and the prosperity of its people. Governor Racedo since he took office has been singularly fortunate in his administration, not only raising the credit of the province, but promoting railways, fairs, colonies and exhibitions—measures which under other administrations took but little root, but which now monopolize the attention of the Government and the people. As an instance of how things have gone ahead in Entre Rios we may state that on Good Friday, 1882, we made an excursion to Monte Caseros by train from Concordia, and were offered some estancia land along the route at 4,000 pats per league, which land has recently been sold at 12,000 pats per league, and even at this price there is no good estancia land thereabouts to be had at that figure.

It is now our pleasant duty to report the opening of the Concepcion de Uruguay Exhibition, being we believe, the first of the kind ever attempted in Entre Rios. The inauguration we believe, also commemorates the centenary of the town, although the truth be told, judging from the size of it, we had no idea the place was one hundred years old, but most of our country towns, whether here or in Entre Rios, are slow of growth. Industry and agriculture can only give life to a country town, and Concepcion suffered years from the incubus of accumulated legislators, lawyers and escribanos, gentry who now have migrated to the chalk cliffs of Parana.

We shall now only give the Inaugural address leaving for another chapter the details of the exhibits.

Coloner Gonzalez spoke as follows:

Your Excellency, ladies and gentlemen; when the roll of nations thought the resources of France hopelessly shattered by the Franco-Prussian war, that healthy, industrious power to the surprise of all, invited the whole civilized world to a grand contest that effectually dispelled such an erroneous appreciation and bore eloquent testimony to the potency of the nation and patriotism of the worthy successors of the Great Captain.

Europe's head-piece was hurt but not shattered. The step was not alone the result of economic evolution, it was as well a sound political movement. In such circumstances when adversity is threatening, since states just as individuals are subject alike to the laws of ascent and decline, the helm should not be abandoned by a panic, stricken crew and the vessel left to the mercy of winds and waves. Heroism is not imperative on the battle-field only, nor is it the exclusive right of the favourities of fortune. The conquests achieved by honest toil are more lasting than the laurel leaves that blood-stained fields wreath round the conqueror's brow, when the triumph advances in nothing the cause of civilization.

To-day this historic city, although only in proportion to its resources, invites her sister cities and indeed all others that can hear her call, to exhibit the progress they have made in the different branches of civilized arts and industries; particularly in stock raising the main-spring, as we all know, of its wealth.

Entre Rios had also its great captain, and this city being absolutely compelled by the removal of the capital to Parana to devote its energies to the task of progress, this day was selected for the inauguration, thus linking with it the great edict of May, promulgated by General Justo José Urquiza, two great events that honour the town of Ramirez and Urquiza. Our present undertaking is undoubtedly but a consequence of that event, since if our rivers had not been thrown open to commerce and the country endowed with a proper constitution, our industries, instead of flourishing as they now do, would have slumbered and perished.

But let us come to the subject of the hour.

On the 3rd of February, 1881, the successors of that patriarch initiated in the former capital of Entre Rios an Agricultural Exhibition, which we may say was the beginning of these great tournaments. Let us begin, therefore, by doing justice to the initiators, who in its conception took a just view of the great advantages it held forth.

The material benefit afforded by these unarmed strifes, gentlemen, is acknowledged by all progressive nations that have put them in practice. Well understanding this, a few men, patriots with scant resources, surmounted the difficulties that blocked their way, and successfully carried out their well-thought plans.

They met, however, with a generous and patriotic co-operation, considering the state of this city, throughout the province, and in particular from the local authorities. Dr. Genaro L. de Elia, Gefe Politico, not only lent them aid in his official capacity, but extended his private relations in a manner worthy of the highest encomium.

H.E. General Roca, President of the Republic, also wished to take part on this occasion, and has presented us with a number of medals, through H.E. the Minister of War, Dr. Benjamin Victorica, whom we have much pleasure in welcoming among us; he has honoured us by his co-operation, and we take this opportunity as the most propitious for expressing our grateful thanks to our illustrious guest and obligations to the Chief Magistrate of the Republic.

The Committee has succeeded in forming a department where statistical data will give you correct information as to our progress and resources.

Art and industry, including agriculture and stock raising, are here befittingly represented. You will observe that we have devoted special attention to the letter in answer to the wishes of the expositors and with regard to its great importance. As was said so opportunely at the inauguration of the first Exhibition here, stock raising is one of the sources of the Republic's wealth, and not only to be cultivated on this account but also for the impetus and aid that it will give to agriculture, which is so much needed. We must, therefore, not only foster the introduction and breeding of stock, but direct special attention to securing competent agriculturists and artisans to direct our efforts; with their aid we shall secure all the objects that we desire.

We believe that we have done an important though unpretending service to the Republic in organizing the Exhibition. Its beneficial results will no doubt make themselves felt, and in the tide of universal progress, reflect all the more on this privileged soil.

To me, therefore, falls the honour of placing this Exhibition under the distinguished patronage of the President of the Republic in the person of His Excellency the Minister of War.

THE BRITISH HOSPITAL.

The annual General meeting of the Trustees and subscribers to the British Hospital, postponed from the 28th of April, was held on 30th April, at 77 Calle Maipu.

There were present, Revds. A. G. Lennox Robertson, Revd. Dr. Smith, Drs. Mackern and Hiron, Messrs Wanklyn, Ibbetson, Casey, Runciman, C. Krabbé, T. Gibson, Ham, Salisbury, Tucker, Rodger, Getting, Bouwer, R. J. Neild.

Mr. Bouwer was elected to the chair.

The minutes of the last special general meeting having been read and approved, the Chairman moved the adoption of the Report and Statement of Accounts of the Committee of Management for the year 1883.

He commented on the Report, and alluded to the work done by the Hospital, and especially to the good order and discipline observed, due, as he said, to the special attention bestowed by Dr. Hanly, the Resident Medical Officer, upon patients and servants.

This statement was corroborated in complimentary terms by Revd. Dr. Smith, and Mr. C. Krabbé.

Mr. Runciman, speaking in the same sense, seconded the motion, which was carried unanimously.

The following gentlemen were elected to fill the places of the retiring Committee, viz: Messrs. Edward Casey, R. I. Runciman, C. H. Sanford, and Revd. A. G. Lennox Robertson. Five suplentes were also named viz: Messrs. C. S. Bowers, Alfred Drabble, J. J. Murphy, O. S. Tudor, C. A. Miles.

A resolution, of which notice had been given, was proposed by Mr. C. Krabbé, and seconded by Mr. Gibson, viz: that the words "pesos moneda nacional" be substituted for the words "pesos fuertes" in the Statutes and Regulations for management. This was carried unanimously and the proceedings terminated.

Subsequently a special general meeting was held at the same place.

Mr. Bouwer was voted to the chair.

The Secretary informed the meeting that, in accordance with the notice, the special general meeting had been called in order that the committee might submit a report of the steps the have taken in regard to the sale of the present Hospital property and the purchase of a site for a new hospital, and also plans and estimates for the erection of the new building, with statement of ways and means for completion of the work, all in accordance with the resolution passed at the special general meeting held on 14th June 1883.

He then proceeded to detail the steps that had been taken, reading the contract of sale to Dr. Alvear of the present hospital, and the purchase from the same gentleman of the new site in Calle Caseros, and mentioning also the circumstances of the purchase of an additional piece of land from Madame Lamarca, in order to perfect the site. He described what had been the difficulties in making an arrangement for the sale of the present and purchase of a new site which would not cause serious inconvenience, and expressed a hope that the meeting would feel satisfied that no stone had been left unturned to carry out the transaction in the manner most advantageous to the interests of the Hospital, and finally he expressed an opinion that it would be opportune at this time to name a special committee to assist the General Committee in the drawing up of plans and estimates for the new hospital and superintending the construction.

Mr. Krabbé then moved and Mr. Runciman seconded a resolution, approving of the actiou of the Committee in the matter and tendering them the thanks of the meeting. This was carried unanimously.

The nomination of a Special Building Committee was then discussed and it was agreed that the General Committee should invite the assistance and advice of such gentlemen as they may deem competent for the purpose—outside of their own body—and also that they shall call another special general meeting so soon as the sale of the old and purchase of the new site shall have been completed, in order to carry out clause 3 of the resolution passed at the General Meeting held 14 June 1883.

Mr. Runciman then proposed and Mr. Krabbé seconded a resolution to the effect that in the operations of setting right the titles of the present hospital and proving that it is the property of the Corporation, whose statutes were approved at the special general meeting held August 13th 1879, those of the Caballito lands be also, if possible, included.

Mr. Neild who, as he said, had carried on the negotiations for the sale of the old and purchase of the new site, up to the present, offered his services to the Committee for the completion of the work, and expressed a hope that they would, if convenient to them, make use of the room at 77 Calle Maipu in which the present meeting was being held.

Subsequently to the meeting a donation of $500 moneda nacional was received from Mr. Thomas Gibson, towards the building of the new Hospital.

LONDON LETTER.

(*From our own Correspondent.*)

THE ARGENTINE LOAN.

April 4th, 1884.

The stereotyped phrase "brilliant success" scarcely expresses the whole truth in regard to the subscription to the Five per Cent. Argentine Loan on Monday last, 31st ult. The subscription commenced at 10 a.m., and at 4 p.m. the whole sum, £1,683,100, was subscribed for *five times* over. The total amount subscribed for was £8,000,000, and the loan is quoted at a premium. That is the way to handle the credit of a State like the Argentine Republic, and it is to be hoped that henceforth it will be placed at once, and in a direct manner, into the hands of a well-known financial house like Messrs. Baring Brothers', and not hawked about by second and third-class financial agents. I am told that when Messrs. Baring consented to negotiate this five per cent. loan they made certain conditions, and those conditions referred to the necessity of sweeping away, as far as was practicable, all remnants of prior operations, or attempted operations. I am not alluding to the Argentine Republic when I venture to suggest that any South American Government should in these days be above eking out emoluments and distributing patronage through surpluses, concessions and commissions. But, if I am rightly informed, the delay in the negotiation of the present five per cent. loan was inconvenient to the Argentine Exchequer and disarranged its banker's account. Whilst you are still elated with the success of the loan, it is well to take the opportunity of remembering one trifling slur on the credit of the Republic—the scarcely polite mode in which the holders of the Hard Dollar Loan were treated. Long before this reaches you I have no doubt that the diplomatic agents of the Republic in London will have communicated to their Government the very general feeling in this city in favour of the conversion of the Argentine debt into one five per cent. sterling loan. This is particularly the case in regard to the Hard Dollar Loan, which, from the service of the debt, that I believe remains the same as heretofore, and the position of the sinking fund, lends itself easily to the operation that could easily be effected by the negotiation of a small loan. I still doubt, from what I see and hear, whether a large loan at present would be looked upon favourably, notwithstanding the late success. However, this old cry of "enough" has often been raised and falsified. In a very appreciative article on the resources, credit and prospects of the Argentine Republic, your contemporary *Money*, of 2nd inst., says in reference to the unprecedented success of the late loan:—

"We are the last to find fault with the Argentine Confederation for putting a proper value on its own securities. In fact, we have lamented the action which has placed some of the recent municipal loans through American agencies, exacting an enormous and utterly disproportionate percentage as the gain of the middleman. The central government has not fallen into this error. Selecting for its intermediaries the great banking house of Messrs. Baring, Brothers and Co., it assures for itself fair terms and the disposal of its wares at the best possible price. Still, we think the price a little stiff. At 84½ the new loan is at least 1 per cent. dearer than the quotation of the 1881 loan. Another point, too, is that the terms appear to offer the Paris buyer an advantage in price. In both these particulars we think a mistake is made. There should be an inducement, however small, to subscribe for the loan on the part of those who take it, not necessarily as an investment, but to retail again. For without the help of these useful intermediaries, many a loan would fail to meet adequate support. And the English investor should be put, in the case of Argentine loans, at least on a footing with his French neighbour; for this will be the market of the future in which the Republic will most readily find the money it may at any time want. Nevertheless, we did not suppose the proposal would be anything but most successful. The amount is small, and a five per cent. loan, because representing a larger capital sum has its own attractions for the investor.

"The Argentine Confederation undoubtedly makes a step in the right direction in placing its securities before the public at a lower rate of interest. Five per cent. is an ample return on the security that she can offer; and we shall live to see such loans quoted at par, like those of her neighbour Brazil. The new issue is brought out with an ample provision for a sinking fund to be applied quarterly, and its object is to pay for the shares of the National Bank subscribed by the government. The debt so created is to be secured by the general revenues of the country, whilst the amounts so drawn from the revenues are to be repaid by the dividends accruing on the shares. The debt, therefore, is incurred for a legitimate and laudable purpose; and in ordinary course will be no tax whatever on the resources of the Republic. The country enjoys the benefit of a metallic currency of full value, and the operations of a National Bank, prudently carried on, should largely help the rapid development of its enormous resources.

"We have scarcely occasion to enlarge upon the prospects before this grand country. More than two years ago, when its solvency was questioned, we wrote a full and explanatory account of its resources, which gave an absolute contradiction to the prophecies of the croakers—an account which was largely quoted at the time at home and abroad, and has since been fully borne out by the progress of the Republic. A year later, when the 1882 six per cent. loan for £808,800 was brought out, we drew attention to the excellence of the security, and dealt with the "deal of rubbish that was talked, founded on a paragraph in a native paper to the effect that the Confederation was going ahead too fast." At different times since then we have dealt with the facts as they have transpired, showing the condition of the country. Perhaps no clearer insight of the present condition can be obtained, than by a comparison of the prospects, according to our view of them, in 1881, and the prospects of to-day."

Passing over your contemporary's predictions and his recapitulation of the resources in revenue, lands, and railways to the Andes and Bahia Blanca etc, I make one more extract. He says:

"The Hard Dollar loan, typical of the others, then at 87, is to-day 92. The unredeemed portion of the then existing loans has been reduced from £9,600,000 to £8,500,000. Specie payments have been established, the premium on gold having disappeared. The projects for consolidating the loans have been voted as too ambitious, though something has been done with respect to the internal issues; and we see in this new loan the first attempt to reduce the charge for interest on the foreign debt."

But why is "Money" so hard upon your little neighbour on the other side of the muddy estuary? He says:

"The first quarterly drawing of the Uruguay Five per Cent. Loan is announced. As it is at par, no doubt the lucky drawers feel comfortable, but it will take many a puckle at this rate to make a muckle. The total drawing is for £13,900. The total loan is for £11,127,000. Multiply the first figure by four, and you have £55,600. Divide, as we used to say at school, the total by the product, and we have exactly 200 years as the time in which the debt will be redeemed. And a good many things may happen in Uruguay in 200 years. Possibly a new and bigger loan might be projected."

With great deference to your contemporary, his "muckles" and "puckles" are not to the point, or they would be equally true of any sinking fund Sinking funds are not the real point in Uruguay loans. The details of the late Unification loan are not quite settled yet. I told you that Colonel Carve was authorized to sign or stamp the London bonds, but it has been a question who was to sign the Montevideo bonds. That may be done by the Minister of Finance, or by Col. Carve himself, who returns to Montevideo by the French steamer. The Minister embarks at Lisbon, and leaves London, I believe, on the 20th instant.

The enlarged port scheme for Montevideo, in the hands of Sr. Santurio, is progressing very favourably and will probably be arranged in a few days.

I see that the Uruguay Government has an advertizement in the *Times*, addressed to "Artists and Sculptors, calling for competitors to design and erect a monument in memory of Artigas! The cost of the work is not to exceed £17,021. I observe that the proposed inscription is to contain no further details beyond the unadorned word "Artigas." The inscription might have been—"Erected in memory of the first and worst of the 'caudillos,' in the hopes that we have seen the last of them."

A friend, who has been *paseando* in the South of Europe, tells me that at Trieste he found they were building a gunboat there for the Uruguay Government, and one or two, I forget which, for the Argentine Government. The vessels are nearly completed. The drawings have been made or revised by the Austrian Government draughtsmen, as the authorities at the Austrian Arsenal are glad to support local builders in obtaining orders of that kind. I may add, as a curious commentary on similar transactions, that the plates for the vessels came from England! My friend was pleased to meet at Trieste and Venice several young Argentine naval officers on a tour of inspection.

Some of you who hold gas shares will read the following extract from our somewhat pessimistic friend "Money" with *gusto*—

"We have taken the collapse of the Metropolitan Company for our text, because it may be regarded as the death and burial of electric lighting in the form it has to this point assumed. Otherwise it is a matter which we can afford to pass by. When the thing came out we denounced it as the 'big brother' of that venomous family to which the parent Brush gave birth. When it was in its death throes we advised the sufferers through its demise as to the course which they should adopt—advice which in part has been followed. The passing bell of lights has now been tolling some time, and the few remnants of the breed linger in extremity. The great Brush is kept together by the loyal but simple faith of a few open-hearted gentlemen who made money in it, and, we assume, think it mean to leave it. The Hammond and Swan Companies are occasionally quoted but seldom heard of, whilst the quotations portend imminent dissolution. Your Pilsens, Maxims and Gulchers are, with the Metropolitan and its brothers, already decently, if scarcely reverently, laid under the sod.

"News comes from Paris that La Force et la Lumière, the Faure Company, fostered by Philippart, which a few months since published a balance-sheet showing assets in millions, has been declared bankrupt.

"Another item of news from South America states that the attempt to light Rio de Janeiro by electricity, during which the shareholders in the gas company have been kept in suspense, has proved an utter failure.

"In short, the boasted effacement of gas and triumph of electricity has not come off. We do not say—we should be sorry to say—that the latter light has not a future. We do not know that if a company were started in a modest way—say with a capital of £20,000, designing to work the best electric light on a low royalty, with liberty to change for any better light that might be produced, and officered by honest men of business—it should have our good word. But the days of the companies started with capitals of hundreds of thousands of pounds, and aims to efface gas and enrich their shareholders, are numbered. There is nothing left for these concerns but to die and be buried; and remembering the attitude we have always taken, it is with some gratification that we give them a parting kick."

EDITOR'S TABLE

The mails by the Royal Mail Company's steamer Mondego were delivered early yesterday. She brings London papers of 1st ult., which are "atrasados."

The rain again threatens, and we tremble for the races to-morrow. Strange fact: It has been remarked by many that whenever a season begins with a wet Sunday, it holds for rain for months of Sundays. We regret to learn from farmers who have arrived from the camp, that in some of the South and West districts there is much hardship and poverty suffered by poor families living in "puestos," and very many are preparing to leave Cañuelas, Navarro, Lobos and San Vicente, and are migrating to the far North camps on the Pavon, Arroyo Medio, and other parts where the camps are high and open and cheap, and not overstocked. We have received a letter from an Irish clergyman who says that in his district he sees nothing of the progress of the country or its great prosperity; on the contrary, very many families are going back year by year, and by no means as well-off as when he took charge of the partido. We advert to this matter merely to advise our countrymen that they must be up and stirring and keep in with the general march of the country. High rents and wet winters are mere local troubles; there are good lands and cheap to be had for sheep and cattle, where, if it rained as in England, the camps would not be too wet. This winter has all the appearance of being a very wet one, and the sooner farmers drive their flocks out of the low flat lands exposed to inundations the better.

Yesterday Mr. Petit left Montevideo for Europe; he goes to bring out freezing machinery to put up a frozen mutton establishment in the South of Buenos Aires.

The Bachelor's ball cards were given round yesterday. They are the most gorgeously grand cards we have as yet seen. At the Committee meeting last night cards were asked for several distinguished native ladies with their daughters, but it was impossible to accede, as we learn the number of ladies invited, totally over-balances the bachelors.

The grand commercial banquet to ex-Governor Rocha takes place on 9th inst. It will be the most superb affair of the season. We saw some of the wines yesterday; 1000$ ⅞ per bottle. The banquet season is beginning as we hear of four other banquets on the tapis. Luckily editors get free tickets.

The sale on Wednesday by Mr. Billinghurst of the Achaval estancia, Mercedes, for 3,400,000$ ⅞ per square league, shows that soon some of our lands will soon touch New Zealand prices.

All the juvenile British subjects in town are going to the Politeama Circus to-day, to see the Shetland Ponies and all the special feats and tricks provided to suit English children's taste. There will be a tremendous gathering of blue-eyed, golden-haired spectators of tender years. The night performance is for British "children of a larger growth."

We learn on the best authority that the report set going by some of our colleagues as to the engine-driver of the Southern Railway train to which the accident happened on Tuesday having been intoxicated, is purely a surmise, and has in no way been proved. Mr Parish, the Chairman of the Company, has ordered the most searching enquiry to be made into the whole sad affair. The general impression, we believe, amongst the officials of the Company is, that the earthworks being rather soft at the spot in question, the rail sank as the train passed, the joint snapped, and then the rail sprang up, throwing the second waggon from the engine off the line. The fact that one of the injured navvies had one leg all but cut off by the rail goes far to confirm this view of the accident.

Professor Harmann, and Mr Ricketts, manager of the Murietta Lands, will leave on Monday for Santa Fe, accompanied by a Government engineer, 'en route' for the Northern section of the Murietta Principality, which they are about to explore thoroughly. Their report will be looked for anxiously, as great interest is taken in the Chaco now that such a potent British firm has taken such a large tract of this hitherto unknown territory in hands.

We have to thank the Argentine Scientific Society for their kind invitation to the lecture given last night in their saloons by Dr Spegazzini, on "The Customs of the Patagonians."

Mr. T. Sheil requests us to correct an error in the publication yesterday of the donation to the Irish Orphanage. The donation of two National Dollars was from "A Friend—per T. Sheil."

The river was again high yesterday, but the floods at the Corrales had all but disappeared. From Barracas to Flores, however, is still a vast expanse of the stickiest of mud, which will take some days to dry up.

An old Frenchwoman, named Forguet, swallowed a lot of sulphuric acid in the open street (Calle Lavalle), on Thursday, and fell down in great agony, shrieking at the top of her voice. She had medical aid immediately, but was so horribly burned inside that she died in a few hours.

The Supreme Federal Court has at last settled the price the Anchorena family is to get for the Recova. The Court of First Instance considered 7½ millions currency the full value of the site, but the higher tribunal has raised the amount to 9 millions, which will be paid at once, and this "ruidoso" affair is now at an end.

Dear Sirs,

I have much pleasure in stating that I cured all my flocks this season with the "Golden Leaf Extract" and found the result highly satisfactory, and in future do not intend to use any other dip.

After first using the "Golden Leaf," I found it such a perfect cure for Scab that I recommended it to several of my neighbours who have all proved it equally good.

Yours truly

Cedulas E	89½
Cedulas F	86
National Bank Shares....	143
Nat. Bank Certificados..	57

Contrary to expectations the month opens with a fair volume of business, and operations in the share market this morning were large indeed. Over 5,000 shares were sold for the end of the month; the market opened with a wavering feeling and at one moment it appeared as if everyone wanted to sell; later on a stiffer feeling set in, but the market closed ½ under the opening rate. Many think that the heavy operators are endeavoring to work a fall in order to effect another corner in the market at the end of the month, but the experiences of the late liquidations have made speculators rather wary.

The great ease of the money market is felt on the Bolsa, and it is calculated that half a million of fresh money has of late come on the Bolsa; this large amount has been taken out of the share speculation and is now going into Cedulas. Series E is becoming firmer every day and it looks as if the market is on the eve of a strong bullish speculation. On the 30th ult. one million and a half Series E were withdrawn. Operations this morning were very limited; a few thousand only were sold for cash at 89½. Series F is also stiffer; 79,000 were sold cash at 85½ and 86; 40,000 were sold for the end of the month at 89½.

About 200 Certificates were marked sold this morning at 57 for the end of the month; the Scrip was much weaker than last night, but there are few or no sellers of the stock at 57, and it looks as if it were bound for 60.

Some operations were reported this morning in exchange circles at 47⅞ on London and francs also at bank rates; no change whatever in the market, business looks limited and difficult.

The new National Mortgage Bank is the talk of the market; we have already given our readers the bases of the project, and it is known that in Congress there is a majority in its favor.

The following were the sales at the ring during official hours:—

Cedulas—
For cash E 2,850 at 89⅞
For cash F 79,000 at 85½-86
For May 31st F 40,000 at 85⅞
Sales, 121,850
National Bank Shares—
For cash 100 at 143
For May 31st 5,150 at 144-143⅞-½-143-½-⅝ to 144-143⅞-½
Sales, 5,250
National Bank Certificates, 30 o/o paid—
For May 31st 163 at 57
National Bonds 1882—
For cash 2,000 at 80

Advices from Rosario are important; it has rained the length and breadth of the Province of Santa Fé from Saturday to Tuesday, camps look splendid and cattle in first-class condition. There is still a great quantity of wheat to come in, the railway is not able to meet all the traffic. The Andine National line has been closed against all cargo save materials to finish the line to Mendoza for several days. Owing to the fall in the price of wheat and high wages the season has not proved over favorable to the farmers who have had a great crop; and I doubt if they will have money enough to pay for the machines purchased by them. There is a very active movement in house property in Rosario. Don Juan Ortiz got a bargain in house property from Magdalan, the brewer, who is going to Europe, it consists of the brewery, a large corner lot adjoining his own beautiful mansion, a fine house rented to the traffic manager of the Central Argentine Railway and two other building lots, all together in Calle Entre Rios, two squares from the railway station, tram passing every minute, price paid $40,000, said to be worth over $60,000, if sold separately. House with 7 rooms, 10x40, Calle Progreso, front of theatre, for $6,300 m/n; buyer Sr. Muñoz, Gefe Politico; seller Pinasco. Also lands in Calle Tucuman, between Progreso and Libertad, adjoining the renowned Keenan's Hotel, for $210 m/n per vara front; buyer Rouillon Manne & Co. Also a square between Calles Dorrego and Moreno and Calles Salta and Jujuy, four squares from railway station sold by an Englishman residing in B. Aires last week to Sr. Beozzi for 8,000 m/n who resold the half of it on Wednesday for 6,050 m/n. Dr. McInnes and family leave next week for Canada, and Dr. Freund will also soon leave for Ireland. Mr. Callan, Member Louth, is still confined to his room at Keenan's Hotel. As yet no Protestant chaplain has been named to succeed the late Rev. Mr. Lett. Twelve sites in Calle Dorrego have been sold from $9 m/n to $26.50 m/n per vara front; also 14 lots in Calles Jujuy, Salta and Dorrego. Lett in Trust, also from $24 to 38 m/n per vara front. Very important sales. The finest private house in Rosario now is Mr. Fisher's new mansion in front of the tower clock of the Central Argentine Railway terminus.

We note in one of the London papers at hand by the mail that there is great complaint in mercantile circles in England at the want of telegrams in the papers from the Argentine Republic. This we may accept as a fresh sign of increased attention abroad to th's country. Interests out here are growing so fast that the people want to know by telegram of what is going on in the country we have received by the mail, a paper published in Madrid by Don Hector Varela which fills its columns with very interesting news from this country, chiefly from Santa Fe we wonder much if the Dons read Don Hector's paper, we note on the front page of the paper that no subscriptions to the journal are received or permitted the paper being sold we suppose in the streets of Madrid.

Mr Bulrichsold yesterday the fine 3 league estancia in Olavarria, belonging to the Gimenez testamentaria, at the ridiculously low price of $381,000 ⅝ for league; buyer, one of the heirs. The attendance and bidding at the auction were small as the public knew that the heirs would buy up the property. This explains the low price per league for an estancia in a partido where lands are worth double the amount paid.

Advices from the third Section of National lands far beyond Carhué are most satisfactory; it has rained in torrents and all the lagunas in the Section are full to overflowing; it may interest the public that they can never get too much rain there. A countryman has started an estancia with 5,000 fine sheep and he intends placing a large 'rodeo' of cattle on the camp, which he says is very good. There is plenty of timber on the land, especially algarobs, offering great facilities for the construction of house, corrales, &c., and last not least invaluable as fuel. Estancias are stretching out rapidly, and it is indeed incredible to read of sheepfarms in the third Section. Mr. Cobbold, of the Sauce Grande, is stocking an estancia in the third Section.

Telegrams from the Mount announce the sale of 5000 American hides at 78.

Lower down we publish an interesting table of the extensions of the National Railways up to the 30th ult.

The 'faena' of the Montevidean saladeros up to date is no less than 268,500 head—the slaughter here is virtually at a close.

The Perseo left Genoa yesterday for the Plate with a full cargo and 700 passengers and emigrants.

There would be no more favourable opportunity for purchasing cattle and stocking estancias than at present; picked cows can be had at $250 ⅝ each and "al corte" $100 ⅝ cheaper. Although lands are no longer so cheap, there are hundreds of leagues of lands the owners of which would be glad to get from $500 to 15,000 ⅝ per annum per league. Renting land and buying stock ought to pay well at present.

Messrs Ebbecke & Co., sold yesterday the following properties of the Martinez testamentaria:—

Venezuela No. 1191—22.73x66.62 metres for $3360 m/n.
Jujuy No. 144—8.66x48.16 metres for $3980 m/n.
2 small properties in Calle Jujuy for $8,200 m/n.
Mr. G. Alkaine bought all these properties.

There is a great lull in the land business; very little land is offered at auction at present. Messrs Bullrich will sell on the 5th inst four leagues of land, situated in the IVth Section of National lands. This lot is situated near the land bought from Mr Tornquist by Mr Bernasconi. There is plenty of timber on the land, a very great advantage to estancieros as they can get posts for fencing, corrals and houses. The report on these lands in the Engineer's Office is very favourable, and the marke tlooks forward with interest to the results of the auction.

The market ruled stiff during afterhours. Series E was firm as a rock at 89½, buyers, but no sellers. The share market had fits and starts. About one thousand shares were sold at 143. The market closed firm at 143½, buyers for the end of the month. The King sold to-day about 1500 Shares. Certificates were in demand at 58.

From the Plaza Once de Setiembre we have the following:—
60 waggons arrived with produce.
The arrivals were:—
1,800 @ of wool
1,522 bags of wheat
513 bags of maize
217 bales of hay
and much other produce.
Little business done.
Cow hides and cereals obtained good prices, and wheat from Costa in demand. Hay maintains its price. Wool and other produce continue flat.
The sales were:—

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f. 2000 ni el prestamo menos de $f.500.

Los prestatios hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 cedulas de 6 o/o de interes, 2 o/o de amortizacion y 1 de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o pa, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, describiendo el inmueble que ofrece en hipoteca de la manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, espresando al mismo tiempo su estension, gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. En este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado de deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

EDITOR'S TABLE.

(Continued from 1st page)

The fresh taxes on meat for the markets are exercising some of our colleagues, but the "entusiasmo frenetico" manifested in the attack on the tramway fares is wanting, although the present abuse of heaping fresh imposts on the food of the people is infinitely more monstrous and indefensible than a few extra coppers on a tram fare. But it is ever thus in these regions. Trifles light as air are magnified into mountains, while mountains of abuses are left unchallenged.

We are asked to again remind the Catholic public that the Passionist Fathers will hold a special service tomorrow (Sunday) in honour of the Founder of their Order. We gave particulars in yesterday's issue.

We are happy to be able to state that Dean Dillon is fast improving in health. Mr John Hughes and Mr Edward Murphy are also convalescent. We are also glad to hear that Father Eugene, Passionist, is recovering from his recent attack of illness.

The phenomenon of the "Fata Morgana" was seen on Thursday morning by a reporter of the *Democrata*, who was near San Cristobal Church at the time. He saw all the houses, trees, etc., in the Barracas valley reflected clearly in the sky.

Ferrari's Lyric Company is expected in the steamer Umberto. The company is composed of the following:—

Prima Donna Soprano—Elena Teodorini; second, Clementina de Vere.

Mezzo Soprano-Contralto—Media Mei.

Soprano and Mezzo Soprano—Hermana Woozin.

1st Tenors—Francisco Tamagno, Nicolas Finge, Adolfo Cocehl.

Baritones—De Arna Inocencio, Albino Verdini.

Basos—Angel Tambulini, Aristodemo Lilich.

Comprimarios—Catalina Baragli, Capelli Clelia, Simonta Napoleon, and Florentini Angel.

The orchestra is composed of fifty persons; there are thirty dancers, and the repertorio consists of the operas of Meyerbeer, Huguenots, Africana, and all Verdi's best pieces, as well as those of other composers.

Many people, not only in this town but in every other city where scenes are not in use, have their fears about frequenting theatres. We should remember the dreadful accidents caused by fires in the theatres of New York, Vienna and Dublin. Sometimes a lighted cigarette thrown by negligence behind the scenes, where generally speaking there is a great deal of combustible matter, would be sufficient to make the most magnificent theatre a burning furnace that would launch into eternity many hundreds of unhappy victims. Of course we do not wish to say that there is much danger in our theatres, but still we fancy that theatres in general would be always crowded, provided there were an iron screen, which in case of fire would isolate the scenes from the rest of the theatre.

We beg to call attention to the fact that to-day there is a special performance for Los Ingleses at the Circus, and we are informed that there are some nice new things, especially flavoured for the English athletic palate. There was a very large attendance at the 'Funcion de Gala' last night, in spite of the threatening weather.

The buoys have all completely disappeared from the channel known as the 'Poso del Marinero' at Colon, leaving it in a very dangerous condition. The sub-prefect has informed the office of Prefectura Maritima and requests that the place be buoyed as speedily as possible.

A sailor of the National gunboat Uruguay fell from the cross-trees to the deck on Thursday and was so hurt that he died in the act of being taken to the hospital.

According to a bulletin, just published, it appears that the number of inhabitants in Buenos Aires on the 31st of March last was 346,789. It does not say whether these figures include the suburban population or not, but we imagine, if the suburbs were included, there would be a considerable increase in the figures.

The superintendent of the 'Mataderos' caught a fellow smuggling in cattle in the small hours of the morning and handed him over to the police.

The 'puesteros' of the Central Market complain of the ruinous taxes they are paying. A short time ago the taxes on carts was raised almost a national dollar on each and that without warning or notice of any description, and evidently without reason.

The Army and Navy Club are starting a new "Revista Militar" under the direction of Lieut. Juan A. Mendoza. Its first appearance will be on the 1st of June.

The Earl of Sandwich is dead, and his son Lord Hichinbroke succeeds him in the title. This old English family has made itself known not only in war, art, etc., but also from the fact of its having given the name to that edible which all the world now takes as a stop-gap between breakfast and dinner. The history of this is as follows: Lord Sandwich, who was in command of the English fleet in the time of the Second Charles, and whose ships had been considerably battered by the Dutchmen, was busily occupied in refitting, when it was reported that the gallant Hollanders were again bearing down on him. The Admiral, who had been only thinking of his fleet, and *not* of his interior, summoned his chief steward, and asked if the sailors had dined; the reply being in the affirmative, Lord Sandwich said "Bring *me* something to eat then." The unfortunate steward answered, "My Lord I have but some beef and bread left!" "Fetch me them quickly," replied the Admiral, as I cannot fight upon an empty stomach." The edibles being produced, Lord Sandwich himself slashed up the bread and beef, and, placing a hunk of the latter between two blocks of the former, said: "From henceforward this shall be called a 'Sandwich.'" In conclusion we would only beg of our 'Confiteria' friends to bear in mind that if they insist upon advertising their wares on the exterior of their establishments, the plural of "Sandwich" is "Sandwiches" and *not* "Sandwicks"!—"Verbum sap"!

Remataremos á la mas alta postura y dinero mitad al contado y el resto á uno y dos años de plazo, sin interés, firmando obligaciones hipotecarias (pagarés), por órden terminante de su propietario, 10,000 hectareas ubicadas en la seccion IV de territorios nacionales, fraccion D., lote núm. 19.

Todo el mundo conoce ya la citada seccion por ser una de las mejores por sus rios y abundantes pastos y buenos aguadas, y la prueba es que hoy dia es la mas poblada de todas las secciones, siendo los principales pobladores los Sres. Antonino Carabaceres, Newton, Tornquist, Jaime Cibils, Pedro Saubidet, Drysdale y muchos otros cuya lista seria larga á detallar.

Para los que duden del valor de las tierras, les aconsejamos que lean los diarios de Nueva Zelandia (Auckland) y Australia, donde campos como estos se venden á 5 patacones el area, que equivalen a $4000 $f treinta y cuatro mil patacones la legua cuadrada, y podran ver que los campos se venden alli hasta 12½ millones la legua.

Ademas les recordamos las ultimas ventas de la Oficina de Tierras de lo Provincia donde se han vendido campos en peores condiciones y distante 130 leguas de un puerto, a 540000 $ legua.

No queremos insistir en mayores demostraciones sobre el porvenir de las tierras de este país: cada uno debe saber lo que hace.

La venta de estas 10,000 hectáreas es sin base y por lo que dén, y las condiciones ventajosas para el pago.

El Martes 20 de Mayo 1884

Remataremos con la base de 2 ps. m/n oro la hectarea, por orden terminante de su dueño y condiciones que se estipulan mas abajo.

Cuatro leguas mas de 1519 cuadras cuadradas, de otra dividida en lotes de media legua, con opcion a otro lote o a toda. Estos campos estan situados a 80 leguas al Oesto proximamente de Buenos Aires y sobre la linea del gran ferro carril del Pacifico, cuyos rieles llegan ya cerca de Junin; lindan con los renombrados campos del Fortin Gainza, de los Sres. Salas y Cernadas, de los cuales estos Sres. han vendido una fraccion al precio de 10,000$ la legua cuadrada.

Los campos que venderemos quedan a 9 leguas del Fortin Gainza Posta de la galera, teniendo por lindero al Sr Don Jose Olivo, que tiene su campo poblado con 3,000 vacas, y ademas con los Sres. Oostendorp, Cesario, Runsiman, Grueben, Llorenti y otros.

Fue mensurado judicialmente el año 1877, vuelta a medir el año pasado, mojonandose entonces con mojones de fierro por el agrimensor Sr. Rodriguez.

Las tierras son ricas en negra vejetal y muy abundantes en pastos, siendo estos mezclados.

El agua se encuentra gradualmente a 2 o 3 metros de profundidad y existen alli jagueles de rica agua. Las condiciones para el pago son comodisimas, pues reconociendo cada legua 78,000 m/c uno, dos y tres años de plazo, con el interes anual del 7 o/o, el comprador solo entregara al contado la diferencia entre el precio de compra y el valor de las letras. Queremos aqui recordar a los interesados los campos del Loreto y Venado Tuerto, que hacen apenas 2 años que eran desiertos y hoy puede decirse que son Colonias; tal es el aumento de pobladores que han ido a establecerse alli.

Estos campos que ofrecemos hoy, sino en mejores condiciones, cuando menos en iguales; aquellos valen hoy 12 a 16,000 pesos fuertes la legua, estos los ofrecemos por una tercera parte.

Titulos garantidos.

KILLS BUGS,
FLEAS,
MOTHS,
BEETLES,

THIS POWDER is quite HARMLESS to ANIMAL LIFE, but is unrivalled in destroying FLEAS, BUGS, COCKROACHES, BEETLES, MOTHS IN FURS, and every other species of insect. Sportsmen will find this invaluable for destroying fleas in their dogs, as also ladies for their pet dogs.

THIS ARTICLE has found so GREAT a SALE that it has tempted others to vend a so-called article in imitation. The PUBLIC are CAUTIONED that the tins of the genuine powder bear the autograph of THOMAS KEATING. Sold in tins only.

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dich
